

Stony Brook University

DEPARTMENT OF
ECONOMICS
FELLOWSHIP
TO PROMOTE
Diversity in
Economics

About SBU Department
of Economics

Established in 1969, the Ph.D. program at Stony Brook University Department of Economics emphasizes excellence in the core areas of economics:

- Game Theory
- Microeconomic Theory
- Macroeconomics and Public Policy
- Applied Econometrics

Graduates of our program are placed in top academic and government institutions, as well as in consulting firms and banks in the private sector.

Fellowship Mission

Stony Brook University Department of Economics is deeply committed to the recruitment and success of a diverse graduate student community. Thanks to the generosity of one of our economics Ph.D. alumnae, we offer this Graduate Fellowship Program for qualified historically underrepresented students pursuing a doctoral degree in our economics program.

Our mission is to empower Fellows to assume their roles and responsibilities as future leaders, educators, and researchers.

Fellowship Funding

Stipend

\$75,000 (over 5 years)+ regular funding

- \$15,000 + \$22,500=
\$37,500 annual stipend

Reduced Teaching

- 2nd semester in 3rd yr
- 2nd semester in 4th yr
- full 5th year

Our Goal

We are committed to onboarding 15 new Diversity Fellows into our Ph.D. Program with the next 5 years.

Qualifications

- High GPA in STEM based major
- Strong academic record and background in mathematics
 - Calculus
 - Linear algebra
 - Real Analysis
- Scoring high on GRE Quantitative
- Supportive letters of recommendation
- Strong personal statement

Our Ph.D. Program

Our Ph.D. program is a small, highly selective and tightly focused. Graduate training begins with a sequence of core courses in the student's first two semesters. After core training in the first year, students choose their major and minor areas of specialization for second year study. Course work is capped by sitting for comprehensive examinations. Once a student passes the comprehensive exams, they embark on dissertation work. Among our specialized areas of concentration, students at Stony Brook may select from: Game Theory, Macroeconomics, Public Policy and Macro Finance, Industrial Organization, Labor Economics, Economic Demography, and Health Economics. These areas represent the important specializations in which Stony Brook faculty possess excellent national and international reputations, and in which the department as a whole is committed to emphasizing in the future.
