Counts represent employees on payroll as of Nov. 1 who are active, on leave with pay, or paid on a suspense account; graduate assistants and student employees are excluded. Individuals are counted only once based on their primary role. Faculty counts include employees with faculty status whose primary occupation is instruction, research, public service or a combination thereof; Long Island Veterans Home physicians with faculty titles are reported as faculty. Administrators and librarians with faculty status are counted as staff. Resident physicians in the University Hospital are counted as staff members. University hospital employees include only individuals whose employment records are managed in PeopleSoft and in general exclude employees of affiliated east end hospitals or those whose employment is managed exclusively through CPMP-PEO. Assignments to West Campus and East Campus/HSC reflect organizational position and not job location. Other employees include those classified as special fund estimate (SFE) employees, employees associated with Stony Brook Child Care Services, and Stony Brook Foundation (SBF) employees. Consistent with reporting requirements from the National Center for Education Statistics, only employees classified as faculty, state employees on West Campus and state employees on East Campus/HSC are reported to the Integrated Postsecondary Education Data System (IPEDS); counts will exactly match IPEDS in 2018 and later and diverge slightly in prior years, which have been reconstructed from administrative data. Data for race/ethnicity categories were collected and reported using definitions from IPEDS; values for 2012 and earlier have been revised to reflect these conventions. Individuals may be counted in only one category. Percent of total uses the total number of employees as a denominator; changes in unknown race/ethnicity can distort percentages. Percentages of U.S. citizens and legal residents with known race/ethnicity remove individuals with unknown race/ethnicity as well as U.S. Nonresident (international) employees from the denominator; this calculation is comparable to figures from the U.S. Census.
